I was going to punt on the various SST GW QAPs, but my sense of duty (reluctant though it may be....) says I should at least be aware of these.

If they are hard copy, why don't you just hang on to them - I expect to be in town the week after the 4th of July. I would appreciate it you could scan and e-mail the Interim Status GW Monitoring Plan for LLBG WMA-3. I may need to have some communications w/Ecology sooner than week after next on this.

Thanks!

They had "RCRA" and "tanks" mentioned and no EPA cc's other than Dennis, so I just thought I'd ask.
